

Applicable prices from 1st April 2018

Price items	Unit price
Transaction fee, per transaction	NOK 0.24
Merchant monthly fee	NOK 150.00

Transaction price

Calculated for each transaction carried out at the payment terminal. Non-completed transactions (e.g. transactions that are rejected due to insufficient funds in the payee's bank account) will not be charged.

Reversed transaction notifications will be charged

Subscription

Merchant subscriptions are invoiced per BAX-number per month assuming that transactions are carried out during the applicable month.

Other prices

Price items	Unit price
Registration of a new contract	NOK 990.00 / per agreement
Return of Goods plan	NOK 95.00/ per BAX-number per month
Transaction price for returned goods	NOK 1.00 / per transaction
Invoicing fee for mailed invoices	NOK 100 / per invoice

Registration of a new contract

When changing or obtaining a new organisation number, a new contract must be entered into. Merchants who sign a BankAxept contract with the bank before 01.07.2018 will not be required to pay for the registration of a new contract, as long as it is entered into before the aforesaid date.

Return of Goods

The Return of Goods product is registered per BAX-number and is invoiced for each and every month even if the service is not used.

Invoicing BankAxept services

Invoices for BankAxept services can be issued as an Autogiro (direct debit), Digipost (digital mailbox) or EHF invoice (public sector electronic invoice). BankAxept will not charge a fee. Paper invoices will be charged NOK 100 per invoice.

Transaction price discounts

Increment	Volume transactions from	Volume transactions to	Transaction price
1	0	1,000,000	NOK 0.24
2	1,000,001	50,000,000	NOK 0.18
3	50,000,001	∞	NOK 0.12

Discounts are calculated based on the total volume of the contracting party within one chain/framework agreement or merchant location contract, and are calculated per calendar year (from 01.01 to 31.12). This applies to the total volume of all BankAxept terminal payments.

The discount model is successive and the transaction prices apply to all the volume within each increment. The next increment will apply when the limit of one increment has been reached. That is, transactions from 0 to 1,000,000 are invoiced at NOK 0.24. Transactions from 1,000,001 to 50,000,000 are invoiced at NOK 0.18, etc.

BankAxept disclaims liability for printing errors. See the date for the latest version.

All prices ex. VAT.

BankAxept's services are subject to VAT.
